

# Linda Martin, Terminal 3 ( Eurovision 1984 )

Long distance USA, last night I heard him say  
He's been away too long, now he's coming home  
Be on the morning plane, if I still feel the same  
I should be waiting 'cause he'd be all alone  
I'm in Arrivals by the time he had said  
I search the information board and it read  
"Terminal Three: flight's on time"  
Staring into a space, searching through every face  
He's been away too long now, he must have changed  
Another time and place can never quite erase  
The way he turned his back and walked away  
I repeated all the words he had said  
Until a voice came through into my head  
"Terminal Three: flight's on time"  
Fly to me on the wings of all you meant to me  
Memories of the dreams that all tomorrow can be  
For you and me  
"Terminal Three: flight's on time"  
Fly to me on the wings of all you meant to me  
Memories of the dreams that all tomorrow can be  
For you and me  
"Terminal Three: flight's on time"  
Long distance USA, last night I heard him say  
Could I be waiting 'cause he'd be all alone  
I told him nothing's changed and I still feel the same  
He's been away too long  
Come on home  
(Long distance USA, last night I heard him say)  
Come on home  
(Could I be waiting 'cause he'd be all alone)  
Come on home  
(I told him nothing's changed and I still feel the same)  
Come on home  
(He's been away too long)  
"Terminal Three: flight's on time"  
Long distance USA, long distance USA  
Long distance USA, long distance USA  
Long distance USA, long distance USA  
Long distance USA, long distance USA
