

Linda Perry, Get It While You Can

In early morning I'm still gettin high
Counting my penny's like a desperate barfly
See me and Jack Daniels stay up wide awake
Counting the circles babe that compliment the lines on my face
Baby, get it while you can
Chasing ole smokey to pacify the shakes
When your a loser babe
You have to cure the pains and the aches
Baby, get it while you can
Hell is my heaven the devil stands right by my side
There ain't no halo to hang above my life
Baby, get it while you can
In early morning as I'm sipping wine
Will you still love me, baby through rain or shine
Baby, get it while you can
