

# Lindi Ortega, I'll Be Here

I have come to catch your tears as they fall down your face  
I'll be here to stand in line if you should lose your place  
Never fear I'll pick you up if you should fall from grace  
My love

Cause

I'll be here  
If the lights go off  
And I'll be here  
If the bomb should drop  
I'll be here  
If the night's too long baby  
I'll be here for you

I will be your morphine shot if you should be in pain  
I will be your sanity if you're declared insane  
Never fear I'll be accused if you're the one they blame  
My love

Cause

I'll be here  
If the lights go off  
And I'll be here  
If the bomb should drop  
I'll be here  
If the night's too long baby  
I'll be here for you

(bridge)

I'll be here  
If the lights go off  
And I'll be here  
If the bomb should drop  
I'll be here  
If the night's too long baby  
I'll be here you  
You know that  
I'll be here for you  
I said that  
I'll be here for you
