

Lindi Ortega, Under Your Radar

You don't see me but I'm there
I threw away my rescue flare
Hoping to crash in mid air
I'm headed for you now

I'm under your radar
I'm under your radar I've been there
Under your radar
Just waiting to crash in mid air

Here come the fire works
Soon I won't have to lurk
I've been waiting all this time
You've never seen something so bright

I'm under your radar
I'm under your radar I've been there
Under your radar
Just waiting to crash in mid air
