

# Lindsay Lohan, Black Hole

I found that box of letters  
Lying on the ground  
The ones you used to write me before it all went down  
I even got a papercut trying to figure out  
What to do with all these memories  
And you're not who you used to be  
And I wonder where your gone

Have you fallen in a black hole?  
Somewhere there's a universe of missing stuff  
What happened to the good times?  
What happened to the moments where we had so much?  
Where's the love? [2x]

Remember all those hours laughing on the floor  
Those days of doing nothing fell like nothing did before  
I don't need those sneakers or that money after all  
I'll trade them for old message you've called

'Cause it's not how we used to feel  
And I wonder what went wrong

Have you fallen in a black hole?  
Somewhere there's a universe of missing stuff  
What happened to the good times?  
What happened to the moments where we felt so much?  
Where's the love?  
I wanna go there, and I wanna know where  
Everything that meant something to me is all

I found that box of letters, used to make me smile  
But now I feel so lonely

Have you fallen in a black hole?  
Somewhere there's a universe of missing stuff  
What happened to the good times?  
What happened to the moments where had so much?  
A black hole  
Somewhere there's a univere of missing stuff  
What happened to the good times?  
What happened to the moments where we had so much?  
Where's the love? [5x]

Has he fallen in a black hole? [3x]
