

# Lindsay Lohan, Symptoms Of You

There's a good kind of pain  
and insane kinda sane (when I'm around you 2x)

There's a chill in the heat  
Feel the sky at my feet 'cause I adore you  
I cant ignore you

Chorus:  
I'm not ill I don't need to  
take a pill to fix what you do  
Cure can come through  
'cause baby all I do is suffer from  
The symptoms of you

There's a left kinda right  
There's a blind kinda sight  
looking at you 2x  
There's no light in the moon and its winter in June  
When I'm without you 2x

Chorus:  
I'm not ill I don't need to  
take a pill to fix what you do  
Cure can come through  
'cause baby all I do is suffer from  
The symptoms of you

And it trips me off my feet  
I think I'm falling in too deep  
Do you feel it too

Chorus:  
I'm not ill I don't need to  
take a pill to fix what you do  
Cure can come through  
'cause baby all I do is suffer from  
The symptoms of you

I'm not ill and I don't need to  
take a pill to fix what you do  
Cure can come through  
'cause baby all I do is suffer from  
The symptoms of you
