

Lindsay Pagano, Dreams Like This

Dreams like this make me feel so fine
I'm wishin on a star, yeah a star...that's wut u r

I wanna tell u sumthin
don't know wut u mite think, but
I sure miss sleepin
And I'm not gonna get a wink until i say it
I'll lie awake wishin u were in my arms

Dreams like this make me feel so fine
I'm rollin down the road, down the road that u rock me on
It must be love or sumthin deep and divine
I'm wishin' on a star, yeah a star, that's wut u r

I miss u baby....u know?
And of all the things that cood be
We're not standin where we shood be
When the stars align and Cupid shoots his arrow
So here I'll be, waitin until u r mine

Dreams like this, baby, stop the time
I'm glowin like the moon, like the moon thru ur window
Cuz it must be love or sumthin deep and divine
I'm tryin' 2 keep it all, keep it all together, yeah

But everywhere I go everything I do
I'll take u w/ me baby
Ur on my mind all the time
All the time

Dreams like this make me feel so fine
I'm rollin down the road, down the road that u rock me on baby
It must be luv or sumthin deep and divine
I'm wishin' on a star, yeah, a star ...that's what u r

Dreams like this, baby, stop the time
I'm glowin like the moon, like the moon thru ur window
Cuz it must b luv or sumthin deep and divine
I'm tryin to keep it all, keep it all together yeah
