

Lindsey Buckingham, It Was You

Every day now how the time has flown
Every day now I am finally home
Because I waited for a woman who
was true
I waited for a woman it was you
Back in '99 our love just in time
If we had had to wait we could be too late
Caught in history future I couldn't see
You saw oh so clear past is gone
William's here
Love him and watch him grow

Every day now I can hear the sound
Every day now love is all around
Because I waited for a woman who
was true
I waited for a woman it was you
Back in '99 our love was just in time
If we had had to wait we would be too late
Caught in history future I couldn't see
You saw oh so clear past is gone
Leelee's here
Love her and watch her grow
Back in '99 our love was just in time
If we had had to wait we would be too late
Caught in history future I couldn't see
You saw oh so clear past is gone
Stella's here
Love them and watch them grow
I waited for a woman who was true
I waited for a woman it was you
