

# Linea 77, Alienation Is The New Form Of Zen

Surprise  
cover your eyes  
green light from my tv-screens  
in my hidden place i find a world  
this mellow sound fucked up my mind  
fucked up my mind  
under a different light  
silence fills my brain  
from mind to suburbia  
i've lost myself in

Alienation is the new form of zen  
Smart people waiting for their turn with the cash

white noise in my brain  
i don't understand  
switch off all my senses  
NUMB 'till tomorrow

under a different light  
silence fills my brain  
from mind to suburbia  
i've lost myself in

Alienation is the new form of zen  
Smart people waiting for their turn with the cash
