

# Linea 77, Lost In A Videogame

We 've got just one coin  
cuz this rocket is speeding along the cold and dark space!  
We have to fly faster... Faster!  
Cuz it' s easy to fall out of step, out of mind!  
With a schizophrenic smile,  
don' t turn around,  
no bonus allowed,  
forget the innocent eyes!  
They slow you down!  
We got a message for you driver!  
We are trying to stop this game!  
Hey will someone shut down this game?  
Everyone but why not you?  
Fly over your little world  
or choose to fall down again!  
We are like in a videogame with a last life to play!  
We are like in a videogame with a last life to play!  
We are like in a videogame with a last life to play!  
We are like in a videogame with a last life to play!  
Don't tell me a lie! ... No!  
Cuz silently pollution is tyrin me out.  
You have to run faster... Faster!  
Cuz you wanna arrive to the princess! Save her!  
We' ve got a secret to tell ya  
someone is gettin tired to follow you in this hole!  
And we won' t forget, we won' t forget  
the faces, your actions, the guilty, my nation!  
Hey will someone shut down this game?  
Everyone but why not you?  
Fly over your little world  
or choose to fall down again!
