

# Linkin Park, She Couldn't

I've seen her smiling  
The sunlight shining on her now  
She couldn't stay here  
She knows you won't let her down

You know she couldn't stay here with you  
You know she had to go  
Even though she couldn't stay here with you  
You know you're not alone

No matter what you think you did wrong  
She knows she had to go all along  
No matter what you think you did wrong  
She knows she had to go all along

You know she couldn't stay here with you  
You know she had to go  
Even though she couldn't stay here with you  
You know you're not alone

I've seen her smiling  
The sunlight's crying for her now  
She wouldn't stay here  
She knows you won't let her down

You know she couldn't stay here with you  
You know she had to go  
Even though she couldn't stay here with you  
You know you're not alone

No matter what you think you did wrong  
She knows she had to go all along  
No matter what you think you did wrong  
She knows she had to go all along
