

Lion Shepherd, I`m Open

I am so tired with this roam
Burning for what`s done
It`s hard to walk
Alone

Ignore these voices
Saying we`re too weak
To move this pendulum
Again

I am open now
Whatsoever has to come
I am open now
To leave this all behind
And move the pendulum
Again

Sail, oh we sail
Through the storms of fate
Unrest in our veins

Oh we sail, yearning for the good times gone
Unsafe with those to come

I am open now
Whatsoever has to come
I am open now
To leave this all behind
And move the pendulum
Again
