

Lionel Richie, Heaven

You're the light
That shooting start that's in the sky
How did I. Get to be by your side

I say these words tonight,
You are my pure daylight
I want to stay with you,
And love my life away it's a brand new day

It seems like heaven
When I'm laying with you
It feels so good. There's no angel
That can compare to you,
You're not of this world

Girl I smile, Cause you let
everybeat of my heart
Feels so right, With you I have
a brand new start

Your beauty is in my eyes,
My heart I can't deny
I want to stay with you, And love my life away
It's brand new day

It feels like heaven, When I'm laying with you
It feels so good. There's no angel
That can compare to you,
You're not of this world

Your beauty is in my eyes,
My heart I can't deny
I want to stay with you, And love my life away
It's brand new day

It feels like heaven, When I'm laying with you
It feels so good. There's no angel
That can compare to you,
You're not of this world

It feels like heaven, When I'm laying with you
It feels so good. There's no angel
That can compare to you,
You're not of this world
