

# Lipz, Bye Bye Beautiful

"We can't go on"

Dirty needles, tender skin

Feel so hollow, we are lost in sin

Burning candles around our graves

Will be the future if we don't step away

Got no one else to blame, just take a look what we became

We can't go on like this no more

I've had enough, have to be strong and carry on, can't go on

We can't go on, my beautiful, time to move on

So bye bye beautiful, beautiful, bye bye

Broken bottles, heavy stones

Dead man walking, like a bag of bones

Dirty secrets, all in vain

Will be the future if we don't step away

I don't care what they say, just take a look what we became

We can't go on like this no more

I've had enough, have to be strong and carry on, can't go on

We can't go on, my beautiful, time to move on

So bye bye beautiful, beautiful, bye bye

I'll always love you

All the things you and I've been through

I know just what I gotta do

I'll never forget, how we used to get lost in the dark

Restless souls, heavy hearts

I don't care what they say, I don't believe in fairytales

We can't go on like this no more

I've had enough, have to be strong and carry on, can't go on

We can't go on, my beautiful, time to move on

So bye bye beautiful, beautiful, bye bye (x2)

"We can't go on"!
