Lisa Brokop, Cool Summer Night

Stopped by today, had a chocolate shake down at Burger Joe's. Took me back to When I fell for you At the drive-thru window. Talked me into taking off early Never saw love in, such a hurry.

CHORUS

That was a cool summer night.
Just like it was yesterday,
I remember.
Big dreams and butterflys
Getting the chills like it was December.
Hearts letting go as we held on tight
That was a cool summer night

Late last night,
It was like old times,
Just me and you.
Stepped away,
Down to the lake
Found an old canoe.
In the moonlight,
You were gently rowing
Without a word,
I knew where we were going

REPEAT CHORUS(x3)
