

Lisa Bund, Here I Am

Looking back where I'm from
can't believe that I'm here
Gave my all paid the price
And I'd do it again
I've walked alone in my head
I've cried in my bed
Here but the morning lights oh so bright
wake me again
It's about a failure it's about a faith
Am it's about a risking it all everyday
It's about holding when you wanna let go
It's just believing in all that you know
Here I am now
Standing on the edge everything I know
Coming together
All my life I've
Seen it in my dreams
Waited for the day
I'm just a second away
Taking time reaching down
To walk through my fear
Break down in my head
I can see it so clear
I work it out in my heart
I see it appear
The world is so beautiful
From the view up here
It's about living not just getting by
It's about reaching when
There's nothing in sight
It's about breathing when it all is too much
It's about standing when
You wanna give up
Here I am now
Standing on the edge everything I know
Coming together
All my life I've
Seen it in my dreams
Waited for the day
I'm just a second away
Everything it's disappearing
Here standing up here alone
And I feel like I stay here forever
Am this is where I belong
Here I am now... oh
Here I am now
Standing on the edge everything I know
Coming together
All my life I've
Seen it in my dreams
Waited for the day
I'm just a second away /2x
Oh my life
Here I am
