

Lisa Bund, Live To Forget You

I let you in
You shut me out
Okay I have it your way
You're free to go
Walk out the door
This was all a mistake
You've made yourself oh so
Clear my dear, my dear
I have just, just one
Tear for you my dear
I'm sad for you
Who lost it all
And you don't even know it
So sad for you
Totally blue
And you'll live to regret it
As I'll live to forget you
I rest my case
In case you doubt
Take a look at me now
I'm at your door
I was once yours
That was then but not now
You've made yourself oh so
Clear my dear, my dear
All I have left is just one tear for you
I'm sad for you
Who lost it all
And you don't even know it
So sad for you
Totally blue
And you'll live to regret it
As I'll live to forget you
Love so sweet
So complete
Suddenly
So not me
I'm sad for you
Who lost it all
And you don't even know it
So sad for you
Totally blue
And you'll live to regret it
I'm sad for you
Who lost it all
And you don't even know it
So sad for you
Totally blue
And you'll live to regret it
As I'll live to forget you
forget you
forget you
forget you
