

# Lisa Germano, The Devil Loves L.A.

The devil loves los angeles  
He has to live where his angel lives  
And the angel says: it beats the devil out of me  
Why, i love to live where there danger be

Devil spends his days by the beach  
The tide toys with his toes, just out of reach  
In hollywood, the angel gives her speech  
Thinks the party has involved you in the contract breach

The devil loves los angeles  
Needs to live where his angel is  
And she says: it beats the devil out of me  
Why, i love to live where there danger be

It beats the devil out of me
