

Lisa Loeb, Eno Ambient #5

Turn up the record barely
I won't let you sit lonely
Play the second note gently
Before the first disappears
Insomniac trends
The night never ends
Sweep the dimes off the bookshelves
Draw the shades down dim
Go out to the desert, abandon it all
Insomniac trends
The night never ends
Turn the record barely
I won't let you sit lonely
Pull the shades down slowly
Before the light reappears
The night never ends
