

Lisa Loeb, I Control The Sun

I control the sun
I turn on the stars
I make all the colors that you see as you circle me
I open up the sky
I control the speed
I can make the green lights flash
I can make you crash

Barely makes a sound
You stop when you slow down

[Chorus]
I can't make you see things the way I see them
I can't make you feel things the way I feel them
I can't wait around for you
I've got better things to do

Cuz I control the sun
I cool down the heat
I can make the walls spin around and raise the ground
I control the world
I can make it flat
I can make the water deep so I can save you from the sea

Stop when you slow down
Afraid that you would drown
[Chorus]

I pushed every button
I pulled every string
I've tried every lever
I've tried everything

Barely makes a sound
Stop when you slow down
[Chorus]
[Repeat]

Cuz I control the sun
I control the sun
If I can control the sun
Then why can't I have you?
I've got better things to do
