

Lisa Loeb, Take Me Back

We used to be best friends
Hanging out in the parking lot
like the day would never end.
You came up with all the plans
I'll be waiting by my window,
In your brother's car you've come to rescue me
cause I need you to
Take me out, make me laugh
Never say now I want to go
back home, all alone
and it makes me sad, cause now you won't
Take me out, make me laugh
Never say now I want to go
back home, all alone
and it makes me sad, cause now you won't.
We used to dream all day.
Play guitar like a rock and roll star
Sing along while the record played
round and round and round
we would never come down
Take me out, make me laugh
Never say now I want to go
back home, all alone
and it makes me sad, cause now you won't
Take me out, make me laugh
Never say now I want to go
back home, all alone
and it makes me sad, cause now you won't
Let me go
If I'm the one you're holding on to
Let me go
cause after all this time I know that I'm the one who can't let go.
Take me out, make me laugh
Never say now I want to go
back home, all alone
and it makes me sad, cause now you won't
repeat chorus
We used to be best friends.
Hanging out in the parking lot like the day would never end.
Take me back.
