

Lisa Shaw, Cherry

who am i to define this thing?
if we get our hearts together
take a chance on hell or heaven
in time we'll see
you decide who you would like to be
if we brave this stormy weather
take a chance or maybe never
live inside a dream
if you feel a bump in the road
if you need some time
take it slow
hold on
boy pick it up now
don't let a good thing stop
take my hand
this really could get rough now
but i'm the cherry on top
baby what's the chances if you hide
from me?
if you let your soul be better
we can face this world together
alive and free
if you're feeling lost and alone
if you need a ride let me know
hold on
boy pick it up now
don't let a good thing stop
take my hand
this really could get rough now
but i'm the cherry on top
hold on
better think it over
remember what you got
take my hand
i really want to know ya
you'll be my cherry on top
i wanna be your cherry on top
i wanna be your cherry on top
