

Lisa Stansfield, Be The Sugar

(l. stansfield/i. devaney/a. morris)

Walking with an attitude
I'm watching how your body moves
Talking with the other boys
I wanna hear you making noise
I think you've got me on your mind
'cos you move your body to my side
I'm going into overdrive
You look and I can feel the grind

Bridge:

Movin' with the light
You're coming close to the bite
Knowing what you want
I almost feel you kiss me

Chorus:

Be the sugar
And the sweet of the night

Be the honey
The honey warm in the light
Be the lover
Bring the body to life
Be the sugar

Thinking like you explode
You rub your hands down to the bone
And now you touch me warm and fast
You get me ? ? ? , make it last
