

Lisa Stansfield, Friday's Child

From the north to the south
You walked all the way
Though you left your home for good to stay
Oh you built all your castles in the sun
And I watched you knock 'em down
Knock 'em down each and everyone

Friday's child can't stop now
Friday's child can't stop now

And I watched you before you came to old
Told you a long time before it ever came to be told
You've got something they don't wanna know
See you've got to hold on hold on and never let go

Ooh Friday's child can't stop now
Don't stop
Ooh Friday's child can't stop now

There you go rainbows hangin' around your feet
And your makin' out makin' out with everyone that you meet
Even havin' a ball and stayin' up late
And watched the sun come up 'round Notting Hill Gate

Ooh Friday's child can't stop now
Don't stop
Ooh Friday's child can't stop now
Not for a moment, not for a minute
