

# Lisa Stansfield, Mighty Love

(L. Stansfield/I. Devaney/A. Morris)

Mighty love, Mighty love

Spoken:

It's once in a lifetime, and this time, it's mine

Never ever, ever gonna let you go

'Cause I'm always gonna love you

There's so much you haven't seen that I can show you

But I never wanna shove you

Maybe ladies come and maybe ladies go

(But I'll tell you) this lady's stayin'

And if you don't want to rush it we can take it slow

Baby it's a special thing, and there's no reason to explain

This is what so many long for, this is

Chorus:

A mighty love, a mighty love

No push or shove, we're all dreamin' of

A mighty love, a mighty love

It's what we want, and there can never be no other love

I swear I'll never have you ride in back, in tow

(I swear) I'll never hurt you

Darlin' I could never be with anyone else

'Cause you're all I need to know

And I won't ever let you go

Baby it's a special thing, and there's no reason to explain

This is what so many long for, this is

Chorus

No one will ever know

Maybe ladies come and maybe ladies go

(But I'll tell you) this lady's stayin'

And if you don't want to rush it we can take it slow

Baby it's a special thing, and there's no reason to explain

This is what so many long for, it's

Chorus
