

# Lisa Stansfield, Real Love

I've got to say it now  
And I'll explain somehow  
The way I feel about the way we are  
I know no other way than just to say it straight  
I want to shout it from the rooftops  
'Cos you wake me up and light me up  
When your eyes start dancing with my mind  
You fill me up and cheer me up I wanna tell you time after time  
Every little thing that I do reminds me of you  
All I wanna do is make love to ya  
I breathe in and breathe out in every breath there's no doubt All I wanna do is make love to you  
You've put a spell on me  
And baby hopefully you'll never break the spell I'm under Whatever this shell be  
I know you've made me see a feeling louder than the thunder I've got to say it now  
But I'll explain somehow  
The way I feel about the way we are  
I know no other way than just to say it straight  
I want to shout it from the rooftops  
'Cos you wake me up and light me up  
When your eyes start dancing with my mind  
You fill me up and cheer me up I wanna tell you time after time  
Every little thing that I do reminds me of you  
All I wanna do is make love to you  
I breathe in and breathe out in every breath there's no doubt All I wanna do is make love to you
