

Lisa Stansfield, Symptoms Of Loneliness And Heartache

(L. Stansfield/I. Devaney/A. Morris)

You need money like you've got no soul

Can't love ever fill that hole

You talk fast but your heart is slow

Can't love ever make you whole

Your laughing at my words right now

But you'll end up a tired and lonely man

You tell me love is nothing but wasted time

Well I'm telling you it's the only way of life

Chorus:

I can't see enjoyment

I don't see compassion

I see symptoms of loneliness and heartache

I don't see emotion or quality of life

Just symptoms of loneliness and heartache

I can't figure out the love we share

I can't see that there's any there at all

You buy me flowers and fancy things

But I need your heart above everything

Your laughing at my words right now

But you'll end up a tired and lonely man

You tell me love is nothing but wasted time

Well I'm telling you it's the only way of life

Chorus x 2

Your laughing at my words right now

But you'll end up a tired and lonely man

You tell me love is nothing but wasted time

Well I'm telling you it's the only way of life

Chorus
