

# Lisa Stansfield, There Was I

(l. stansfield/i. devaney/a. morris)

Chorus:

There was I  
Taking every step for you  
There was I  
Taking every breath for you  
And all the time you were with her

I loved you  
I spurred you on  
Never wanting for myself  
Adored you  
For what I don't know  
Cos you were loving someone else  
And now you're spitting in my face  
Telling me that someone else  
Has taken my place

Chorus

Important  
Oh how important you were to me  
Eternal  
That's what I thought our love would be  
But now you're spitting in my face  
Telling me that someone else  
Has taken my place

Chorus

And now you're spitting in my face  
Telling me that someone else  
Has taken my place

Chorus (x 3)
