

# Lisa Stansfield, Wake Up Baby

(L. Stansfield/I. Devaney/A. Morris)

Just the way you walked, walked into my life  
Then you walked right out, you were as cold as ice  
How could you be mean, to treat me so unkind  
Now I'm on my own, in a cold and lonely life

Chorus:

Wake up baby

Can't you see I'm half insane

Wake up baby

'Cause you know I'm not to blame

You know you're crazy to throw it all away

So won't you wake up baby

Baby

Take the time to look, look into my eyes

Then you'll see this girl will always love you right

She will always try to give you what you need

So askin' you, I'm beggin' and I'm pleadin' with you

Chorus

Rap:

Can't you see you're just killin' me

I'm on my own and I'm all alone

Don't cha know that you're not at home

I can't sleep at night I get so uptight

Whatcha been is bad to me

If you had heart boy, you'd be smarter

Lied, cheated and mistreated

Listen baby, you're out of order
