

Lisa Stansfield, Wish It Could Always Be This Way

(L. Stansfield/I. Devaney)

Into the sunrise

You're still lying by my side

Baby there's no need to touch me

'Cos I can feel your eyes

They're burning through me burning through me

Warmer than the morning light

Ooh the closer you get

The faster my heart beats

Don't stop yet

'Cos there's lots more we can see

We'll be makin' love makin' love

While the sun shines

I have spent my whole life long just trying to find you

Now I'm not gonna let it slip away

Chorus:

Wish it could always be this way

To always cherish the love we make

Because if life is what we make it

Then let's make it

Always be this way

You're my darling

and you'll always be

My mm mm mm

My everything

We'll be makin' love makin' love

I have spent my whole life long just waiting to find you

Now I'm not gonna let it slip away

Chorus

I have spent my whole life long just waiting to find you

Now I'm not gonna let it slip away
