

Lit, Next Time Around

Well I'm dreaming about a Cadillac
And the girl that I used to have
But I know that I could never go back
To the day we took the photograph
That I'm holding in my hand
I can't believe I messed it up so bad
If I get another chance
I'd never waste it yeah
I swear I'll be a better man

And I'll tell you right now
I'll make it up next time around
Yeah!
I'll pick you up and never put you down
Next time around
Yeah!
I'll lift you up and never let you down
Next time around

Now I'm thinking about the good times
All the friends I used to know
And they always said they would have my back
But now I'm flying solo
All alone again I stand
I can't believe I messed it so bad
If I had another chance
I'm gonna make it up
I'll try and be a better man

And I'll tell you right now
I'll make it up next time around
Yeah!
I'll pick you up and never put you down
Next time around
Yeah!
I'll lift you up and never let you down
Next time around

I'll pick you up and never put you down
Next time around
Yeah!
I'll lift you up and never let you down
Next time around

I'll pick you up and never put you down
Next time around
Yeah!
I'll lift you up and never let you down
Next time around
