

Lit, Sunny Weather

Well... I've got a hundred thousand watts
on a thousand dollar stereo
Surrounded by speakers but I'm hollow as hell
I've got a hundred sad songs
about the day that you walked out
and I'm feelin' so down
It's just a bad situation
I wish that I can say that ...

I dont care about the
sunny weather
Don't care about the sex when we're together
Don't care about nothin'
if you don't care
Why don't ya!

Well... I got a lot of good drugs
but I dont know how to use 'em
So I threw them in the trash
and now my dogs are high as hell
I got a hundred better reasons
why you ought to stick around
And i'll never back down
It's just a another situation
I can't control it now.

I dont care about the
sunny weather
Don't care about the sex when we're together
Don't care about nothin'
if you don't care

I'd give it all away for you
For just another day with you
What am I gonna do

I don't care about nothin' (nothin' nothin')
I don't care about nothin' (nothin' nothin')
I don't care about nothin'
if you don't care

Well I dont care about the
sunny weather
Don't care about the sex when we're together
Don't care about nothin'
if your not there

Well I dont care about the
sunny weather
Don't care and I wish I never met her
Don't care about nothin'
if you don't care
