

# Lita Ford, Fire In My Heart

It's just another night  
I stare at a star  
I think about, I wonder how you are  
I cannot escape you  
No, I can't put out the fire in my heart

I don't feel shy, I'm not alone  
But you're caught in my dreams, that's the way it seems  
No matter how I try, I just can't put out the fire in my heart

Fire in my heart  
One look in my eyes  
And you'll realize  
The fire in my heart  
Is burnin' for you  
Fire in my heart  
The fire in my heart

Our hearts beat  
Like thunder sings  
You feel right  
You know you're everything  
No matter if we cry  
We gotta turn around and walk our seperate ways

The fire in my heart  
One look in my eyes  
And you'll realize  
The fire in my heart  
Is burnin' for you  
The fire in my heart  
The fire in my heart

It's just another night  
I stare at a star  
I think about, I wonder how you are  
I cannot escape you  
No, I can't put out the fire in my heart

The fire in my heart  
One look in my eyes  
And you'll realize  
Fire in my heart  
Is burnin' for you  
The fire in my heart  
The fire in my heart

The fire in my heart
