

# Lita Ford, Just A Feeling

It's been five days, my mind's in a haze  
I don't know if I'm comin' or goin'  
I'm so confused, that you're the one I choose  
So rock with me, babe, let's get it rollin'

It's just a feeling that I get  
From the first time I ever met you, babe  
It's just a feeling I can't forget  
So don't kiss me goodbye, just give one more try at your love

The days go fast, you're stuck in my head  
I'm so alone, I wish you'd tuck me in bed  
Oh, baby, baby, baby, well I knew it from the start  
Yeah, right from the start

'Cause it's just a feeling  
Feeling  
That I get  
From the first time I ever met you, babe  
It's just a feeling  
Feeling  
It makes me wet  
So don't kiss me goodbye, just give one more try  
At your love  
Yeah

Oh, when you told me that you don't want me no more  
I said, "I love you," ah, but you wanted more  
Oh, baby, baby, baby, well I knew it from the start  
Yeah, right from the start

'Cause it's just a feeling  
Feeling  
That I get  
From the first time I ever met you, babe  
It's just a feeling  
Feeling  
I can't forget  
So don't kiss me goodbye, just give one more try at your love  
Won't you give me one more try?
