

Lita Ford, Lisa

Lisa, you are the shelter for my soul
Lisa, you heal my heart when I lose control
As I let my fingers trace
Each time worn line upon your face
I know only love creates a masterpiece like you
I know it's true!

Lisa, Lisa, say you're gonna live forever
Lisa, Lisa, never gonna say goodbye
Only you know who I am
Only you really understand
Nothing's gonna take you away!

Lisa, I know we live in different worlds
Lisa, but I will always be your little girl
And on a stormy night you built a rainbow to my door
I'll always remember you!

Lisa, Lisa, say you're gonna live forever
Lisa, Lisa, we're never gonna say goodbye
Only you know who I am
Only you really understand
Nothing's gonna take you away from me!
