## Lita Ford, Lisa

Lisa, you are the shelter for my soul Lisa, you heal my heart when I lose control As I let my fingers trace Each time worn line upon your face I know only love creates a masterpiece like you I know it's true!

Lisa, Lisa, say you're gonna live forever Lisa, Lisa, never gonna say goodbye Only you know who I am Only you really understand Nothing's gonna take you away!

Lisa, I know we live in different worlds Lisa, but I will always be your little girl And on a stormy night you built a rainbow to my door I'll alway remember you!

Lisa, Lisa, say you're gonna live forever Lisa, Lisa, we're never gonna say goodbye Only you know who I am Only you really understand Nothing's gonna take you away from me!
