

# Little Birdy, Bad For You

I can't lie and say i dont hate you  
you ever make me feel any good about me  
its too long now since you and me showed faith  
and you shouted, wont you stay forever young, alright ooh

iiii, i dont want you anymore, i dont need you anymore i cant see you anymore im drowning around

all my life i chose to accept you  
other tigers, come and go throughout the night, the night, the night, the night  
and oh but your hair, you be to stay the way you are  
i cant follow, in your foolish ways, again, my love

cos i dont want you anymore i dont need you anymore, i cant see you anymore, im drowning around  
x2

ooh, had enough of it all, too now, oh now, lalala, enough of it all
