

Little Birdy, Close To You

O take me home
Don't give up on me
My selfish heart is alone tonight
Wait they say you always get your way
True love aint doing me no good
I wanna let somebody out
And I need you now more than ever
And I need you now for me

I wanna be close to you when everybody's gone
I wanna be close to you when everybody's gone

Wait they say you always get your way
True love aint doing me no good
I wanna let somebody out
And I need you now more than ever
And I need you now for me

I wanna be close to you when everybody's gone
