

Little Birdy, Forever

Call me anytime
And I'll be there
In the summertime
The cold night air
Cos I want you
For a peace of mind
And a good night stare

Call me anytime
And I'll be there
In the wintertime
And the trees are bare
Cos I want you
For a peace of mind
And a good night stare

Forever
Forever
Forever
Forever is too short a
Time with you

Call me anytime
And I'll be there
In the summertime
The cold night air
Cos I want you
For a peace of mind
And a goodnight stare

Forever
Forever
Is too short a time with you
