

# Little Birdy, Message To God

I'm losing track of everything  
I haven't lost my mind  
I go along with you  
I take it all away  
But baby let me float along to the place where I was born  
I'm only holding grace  
Its just a crying game that you take

O with you  
O with you

Wont somebody please write a message to god

So won't you come and walk with me  
Take me down by the shore  
Deep among the sharks  
There's a song I know you sing  
But you live you're life alone  
You live it so you grow  
There's little time to grasp  
I'm not the one you want so I go

Wont somebody please write a message to god  
Wont somebody please write a message to god

Today I feel like the  
World is gonna end  
The end is the end  
Go ahead don't cry

Baby  
I'm on my own  
Baby  
I'm on my own
