

# Little Birdy, Relapse

Live on the outside  
I'll help you through your pain  
If you help me through mine  
Never have I met  
Someone as insensitive as you

I want to escape what you've done to my life  
I love the way that you're always on my mind  
It's okay you're not a bad one you're sane  
I can't help this pain that I feel

Relapse and soda  
My head is not all that you want it to lay  
Existence is purpose  
Explain what my touch means to you if it does

I want to escape what you've done to my life  
I love the way that you're always on my mind  
It's okay you're not a bad one you're sane  
I can't help this pain that I'm feeling  
i can't help this pain that I'm feeling  
i can't help this pain that I'm feeling

When I saw you, I want to escape what you've done to my life  
I love the way that you're always on my mind  
It's okay you're not a bad one you're sane  
So how you love, it feels how you feel

Yeah, yeah..
