

Little Boots, Every Night I Say A Prayer

love is darkness blinded by the light
let it lead you, listen for the cry
i will find you, every time i turn you're there
you're there

i have seen into the future
i want you to take me there
i have seen into the future
every night i say a prayer
every night i say a prayer

hoping for forgiveness
we all make mistakes
i wanna walk beside you
i've gotta keep the faith

now that i found you
never gonna let you go

i have seen into the future
i want you to take me there
i have seen into the future
every night i say a prayer
every night i say a prayer

oh, oh
every night i say a prayer
every night i say a prayer
/2x

i know where we're going
i know where we're going

i have seen into the future
i want you to take me there
i have seen into the future
every night i say a prayer
every night i say a prayer

oh, oh
every night i say a prayer
every night i say a prayer
/2x

oh, oh,
i want you to take me there
i know where we're going
/2x
