

Little Jackie, Guys Like When Girls Kiss

There probably aint one woman on Earth who hasnt considered this
Men are from another planet, how can we possibly co-exist?
They came from Mars, women came from Venus
We think with our brains, men think with their penis
Every stereotype has a little bit of truth
Theres (?) case of evidence if you needed some proof
Perplexed by the opposite sex, Ill tell you whats next
Where Im gonna direct my love and affection
Im gonna get with a woman
You know I might as well
Ima tell every single guy who be hollerin they can go to hell
Go make her my bride
Even though we on the same side
Oh, its gonna collide
When we walk down the aisle
Gonna get with a woman
And my exs will be crying
Cause the ceremony was sad
But it wont be so bad
I dont mean to diss
I know Ill be missed
Anyway, guys like when girls kiss
Friends keep telling me younger boys will eventually be a problem
I swore off being with older men again and again and I thought of giving up on
Caucasians, Hispanics, and Asians
Exclusively being with men of an African decent
Im beginning to understand Ill never ever be content
In any given element, Im 100% convinced I wouldnt need to turn into a lesbian
If me and the boys could just stop disagreeing on just about everything
Im gonna get with a woman
You know I might as well
Ima tell every single guy who be hollerin they can go to hell
Go make her my bride
Even though we on the same side
Oh, its gonna collide
When we walk down the aisle
Gonna get with a woman
And my exs will be crying
Cause the ceremony was sad
But it wont be so bad
I dont mean to diss
I know Ill be missed
Anyway, guys like when girls kiss
I dont care how wrong its gonna be
But you gonna be all into me
Were gonna be so happy
Cause you (?) what I say seriously
Were getting along beautifully
Loving me endlessly
Girls kiss girls
We do it so sensually
We turn all the boys
Well make them go crazy
Im getting my revenge
But how insane ?
Im gonna get with a woman
You know I might as well
Ima tell every single guy who be hollerin they can go to hell
Go make her my bride
Even though we on the same side
Oh, its gonna collide
When we walk down the aisle
Gonna get with a woman
And my exs will be crying

Cause the ceremony was sad
But it wont be so bad
I dont mean to diss
I know Ill be missed
Anyway, guys like when girls kiss
