## Little Mix, I Love You

[Jesy]
Uh oh, uh oh, here I go again, baby, baby
I hear your name and it's like I'm breaking, aching
You still got that power hanging over me
It's always over but still happening

Uh oh, uh oh, here I go again, baby, baby

[Jade]

I just wanna scream out 'til my voice breaks Even if the tears fall and my heart hates me Baby I love you

[Leigh Anne]

Uh oh, uh oh, don't know how I'm still breathing, breathing I got this hole up in my heart baby, baby And it doesn't matter what no one say Even though it's broken, I love you anyway

Uh oh, uh oh, here I go again, baby, baby

[Perrie]

I just wanna scream out 'til my voice breaks Even if the tears fall and my heart hates me I just wanna know how I can save me Even if these three words choke and take me Baby I love you

[Jesy]

I feel your touch when I'm alone at night But it's just me who's holding tight And this life don't feel like you There's nothing left but these I love you's

[Jade]

I just wanna scream out 'til my voice breaks Even if the tears fall and my heart hates me

[Perrie]

I just wanna know how I can save me Even if these three words choke and take me Baby I love you

[Outro] I love you Baby I love you I love you Baby I love you
