

# Little Texas, Country Crazy

(Porter Howell/Chuck Jones)

(Track 12 - Time 3:45)

She cut her teeth on the Rollin' Stones  
It's Only Rock 'n Roll was her favorite song  
But these days she's had a little change of heart  
Now she's into fiddle and slide guitar

She used to be a rock 'n roll baby  
But now she's country crazy  
It happened to her overnight  
She woke up and saw the neon light  
No one could have seen it comin'  
She turned into a honky-tonk woman  
She used to be a rock 'n roll baby  
But now she's country crazy

All her old records are covered in dust  
She's got her favorite country station on from dawn 'till dusk  
Now head-banging slam-dancing ain't her thing  
She says it ain't got nothin' if it ain't got twang

She used to be a rock 'n roll baby  
But now she's country crazy  
It happened to her overnight  
She woke up and saw the neon light  
No one could have seen it comin'  
She turned into a honky-tonk woman  
She used to be a rock 'n roll baby  
But now she's country crazy

She used to be a rock 'n roll baby  
But now she's country crazy  
It happened to her overnight  
She woke up and saw the neon light  
No one could have seen it comin'  
She turned into a honky-tonk woman  
She used to be a rock 'n roll baby  
But now she's country crazy  
She used to be a rock 'n roll baby  
But now she's country crazy
