

# Little Texas, I'd Rather Miss You

(Porter Howell/Dwayne O'Brien)  
(Track 8 - Time 3:58)

I could forget you  
I could make new plans  
Find someone to help me  
Spend this time on my hands  
I could pick up the pieces  
Even fall in love again  
But until I do

I'd rather miss you  
And live with the memories  
The nights when you held me  
Will carry me through  
And if I have to choose  
Between living without you  
And learning to love someone new  
Then I'd rather miss you

From the first time I saw you  
'Til the day we said goodbye  
You were the best thing  
Ever walked into my life  
So I'll just keep waiting  
Hoping you'll come back again  
But until you do

I'd rather miss you  
And live with the memories  
The nights when you held me  
Will carry me through  
And if I have to choose  
Between living without you  
And learning to love someone new  
Then I'd rather miss you

And if I have to choose  
Between living without you  
And learning to love someone new  
Then I'd rather miss you  
Then I'd rather miss you  
Then I'd rather miss you
