

# Little Texas, Only Thing I'm Sure Of

Just like everyone else  
I've seen hard times, they come and they go  
When all the work I put in  
Just doesn't work out there's one thing I know.

Chorus:

Cause the only thing I'm sure of  
Is I don't know what I'd do without your love.  
You and me together will always be enough  
From now until forever even when times get rough  
I know that I can depend on your love  
And that's the only thing I'm sure of.

I been losing my mind  
Breaking my back since I don't know when  
When I finally get home  
the next thing I know I'm leaving again.  
Just when I think that I'm gonna quit it  
You're the one that keeps pulling me through.

Chorus

If it all starts to fall down around me  
You'll be standing right here by my side.

Chorus

I know that I can depend on your love  
And that's the only thing I'm sure of  
The only thing I'm sure of.
