

# Little Texas, You And Forever And Me

(Porter Howell/Stewart Harris)

(Track 4 - Time 3:44)

The moon is off my shoulder  
The sun is in my eyes  
Almost to my hometown  
It's just another mile  
Memories surround me  
Of an old familiar time  
Life was simple then  
When your love was mine

There's a cool wind  
On the desert tonight  
I can almost see your golden hair  
Flyin' in the moonlight  
And ooo it was a restless kinda free  
When it was you and forever and me

I pull off the highway  
On your side of town  
Make the turn past the railroad tracks  
As the sun goes down  
I remember how you would wait  
By the front porch light  
You were always ready  
To take a midnight ride

There's a cool wind  
On the desert tonight  
I can almost see your golden hair  
Flyin' in the moonlight  
And ooo it was a restless kinda free  
When it was you and forever and me

Sometimes love gets lost  
And it's never found  
But I just had to see  
If you're still around

There's a cool wind  
On the desert tonight  
I can almost see your golden hair  
Flyin' in the moonlight  
And ooo it was a restless kinda free  
When it was you and forever and me

Ooo it was a restless kinda free  
When it was you and forever and me
