

Little Walter, Everybody Needs Somebody

Everybody got somebody,
you know I want somebody too
Everybody got somebody,
you know I want somebody too
You better be careful, baby,
'cause I've got my eyes on you

Everybody needs somebody,
and I need somebody too
Everybody needs somebody,
and I need somebody too
I'm gonna make up with you, baby,
if it's the very last thing I do

Well I'll let you know,
she's built up from the ground
She's got a way of lovin',
makes my love come fallin' down
But I got somebody
and I found somebody too
I won't have to worry no more,
don't care what they do
