

Little Walter, Who

Who, told you, that I was foolin' around
Who, told you, that I was goin' to town
Who ever told you baby, better get outta town

Who, told you, that I was cheatin' last night
Who, told you, that I ain't doin' was right
Who ever told you baby, better get outta sight

People always talkin' about something they don't know
They like to stir up trouble, 'cause they want to see a show
Who, told you, that I was foolin' around
Who ever told you baby, better get out of town

Some folks just stay happy that I feel as bad
They get the biggest kick, when someone is feelin' bad
Who, told you, that I was cheatin' last night
Who ever told you baby, better get outta sight
